PROFESSIONAL SUMMARY

Results-driven Mid Software Developer with over approximately 3 years of experience in full-stack web and systems development. Specialized in architecting enterprise solutions using .NET (ASP.NET Zero, ASP.NET Core MVC/API), Angular, and React. Expert in applying OOP and SOLID principles across PostgreSQL and MS SQL Server environments. Proven track record in core HRMS development (MRF, Recruitment, Employee Data, Plantilla) alongside standalone Employee Self-Service (ESS) and a gamified Performance Management System (PMS).

WORK EXPERIENCE

Web Developer — Brigada Group of Companies Inc

October 2023 – Present

- Architected and maintained scalable enterprise software solutions using SOLID principles and OOP concepts across multi-tier backend architectures and modern web frontends, reducing legacy technical debt by approximately 30%.
- Engineered the core company-wide Human Resource Management System (HRMS) using ASP.NET Zero, Angular, and MS SQL Server (SSMS) across approximately 4 critical modules (MRF, Recruitment, Employee Data, Plantilla), streamlining internal HR operations for approximately 1,000+ employees.
- Developed and deployed the Employee Self-Service (ESS) platform utilizing ASP.NET Core, Angular, and MS SQL Server to automate staff leave processing, profile management, and timekeeping, cutting manual processing time by approximately 50%.
- Architected a standalone, gamified Performance Management System (PMS) using ASP.NET Core, React, and PostgreSQL featuring achievement badges, leaderboard rankings, and quest completions, driving an approximate 40% increase in overall employee engagement during evaluation cycles.
- Optimized complex PostgreSQL and SSMS queries and decoupled MVC code, improving database response times by approximately 35% and ensuring high system performance and security.

Programmer — GenSantos Foundation College Inc

October 2022 – October 2023

- Engineered the institution's first fully functional Computerized Library Management System from the ground up leveraging Java OOP principles, digitizing record management for approximately 2,000+ active students and faculty.
- Implemented automated workflows for book cataloging, circulation tracking, fine management, and student borrowing records, reducing manual checkout wait times by approximately 60% and eliminating paper tracking errors.

Web Designer — Beyond Tax Solution

January 2021 – October 2022

- Designed, built, and launched approximately 10+ custom responsive websites for international clients (such as Glocom.org, Jvillalobosart.com, Findweedhere.com) utilizing WordPress and Divi Builder, boosting client site engagement by approximately 35%.
- Optimized cross-browser UI/UX layouts and site loading performance, boosting Google PageSpeed scores by approximately 25% and enhancing search engine indexing and organic traffic.

EDUCATION

BSIS Bachelor of Science in Information System — GenSantos Foundation Inc.

Graduated: 2023

SKILLS

Languages & Frameworks: C#, ASP.NET Zero, ASP.NET Core MVC/API, Angular, React, Node.js, Express.js, TypeScript, Blazor, .NET MAUI, Java, Bootstrap, HTML5, CSS3, JavaScript

Database, Cloud & DevOps Tools: PostgreSQL, Microsoft SQL Server (SSMS), Entity Framework Core, AWS, Docker, GitHub, SourceTree

Architecture & Concepts: Object-Oriented Programming (OOP), SOLID Principles, MVC Architecture, Gamification UI/UX Dynamics, RESTful APIs, OAuth2

Competencies: System Architecture, Hardware & Software Troubleshooting, Full-Stack Optimization, Problem Solving
